TO OUR OWNERS

Between heatwave and monsoon, your guests' idea of the 'first drink' is changing.

It's peak summer season — but what guests order is different from last year.

This issue covers ① today's **rising keywords** (searches & hashtags), ② the **new-release rush** proving them, and ③ **your summer menu** — in that order.

PART 1

Rising Keywords

Numbers, not hunches — where searches
and hashtags point

Draft beer: summer's No.1 climber

Naver searches — 1st week of April vs July

+61%

'Draft beer' search growth

ON THE GROUND

The longer the heat, the more guests start with an **ice-cold first pour**. Draft **line cleaning, temperature and foam control** are your repeat-visit rate.

Highball: searches down, orders up

Searches halved — CVS sales up three years straight

FLIP IT AROUND

Fewer searches isn't the end of the trend — it's now a **default order that needs no searching**. What you need next is **a highball only your bar serves**.

This week's industry: "fresh and light"

The most frequent words in this week's liquor news

Low-ABV

Fruit flavors

Non-alcoholic

RTD highball

Pineapple

Lychee

Lemon

Yuzu

Mixology

Home drinking

ONE-LINE SUMMARY

The industry is moving as one to **fruit flavors around 5% ABV** — a race for "**a light drink you have often.**"

WHY IT MATTERS

Guests' tastes changed first. **Your menu is the last puzzle piece.**

PART 2

Market Moves

New releases prove the keywords — this week's launch rush at a glance

Release rush: all 'fruit + low-ABV'

TAKEAWAY

Byeolbit Chungha: **80 million bottles in 4 years** — low-ABV sparkling is a **proven category**, not a fad.

Non-alcoholic: already in 64,000 venues

Non-alc beer stocked across dining channels
(restaurants, BBQ, bars)

line

As of May 2026 · Oriental Brewery

Non-alc beer sales share

Nearly half for the No.1
brand —
a sign the market has
matured

IN YOUR VENUE

Non-drinking guests still add to the check.

**One non-alc SKU is now standard, not
optional.**

The convenience-store & collab offensive

Celebs and limited editions pull 'new-drink moments' into CVS

Celeb highball & stout

G-Dragon highball, McGregor stout — CVS exclusive

Highball glass packages

Whisky + glass + recipe book — home-drinking push

Pairing marketing

Experience-first offers like stamina food × whisky

FIGHT BACK

Win with what CVS can't do — **fresh-poured draft at temperature, hand-built signature highballs, food pairing.** A can can't match that.

PART 3

Your Summer Menu

Apply the keywords to your venue — five things are enough

5 things summer guests look for

1

Ice-cold first draft

Temp · foam · line care — the first sip is the visit

2

Fruit highball signature

Turn pineapple · lychee · lemon trends into your pour

3

A 3–5% low-ABV option

Sparkling low-ABV · fruit makgeolli — light & frequent

4

One non-alc on hand

Non-drinkers raise the check too

5

A look worth shooting

Glassware · garnish · color — free ads on SNS

Your venue — how many boxes?

Under 3 means it's time to review the summer menu

- ☐ You check **draft temp & foam** daily
- ☐ A **fruit highball signature** is on the menu
- ☐ At least one **3–5% low-ABV** item
- ☐ **Non-alc** is always in the fridge
- ☐ Menu & glassware **beg to be photographed**

SEWANG HAS YOUR BACK

Summer order mix, new-product sourcing, signature recipes — **your sales rep will rebuild the menu with you.**

THIS WEEK'S MEMO

Check the weather, then order

July W4 outlook — monsoon in the capital · heat in the south

SEOUL AREA · MONSOON

Up to
150mm
heavy rain

Foot traffic swings →
focus on bottles & cans
+ delivery-friendly sets

HEAT · TROPICAL NIGHTS

Feels like
34°C
nights stay
hot

After-work 'first cold

& low-ABV early

ORDERING TIP

Rainy weekdays: **go light**. Clear weekends:
draft turnover — split the week and tune
volumes with your rep.

CLOSING

The search bar is always half a beat ahead.

Draft is climbing, highballs became the default, and the market is moving toward 'fresh, light drinks'. Sewang will have your next order ready — with data and stock.

Data: Naver DataLab search trends (Jul 2025–Jul 2026, weekly)
